SKILLS

- Productivity
- Teamwork
- Effective communication
- Stress management
- Adaptability
- Creativity

ABOUT ME

I am a web developer with 2 years of experience developing all kinds of projects, using technologies such as Django, Nestjs, PostgreSQL, Tailwind and Reactjs, with a great passion for learning every day and achieving new achievements.

EXPERIENCE

FreshShop

(<https://freshshopclient.onrender.com/>)

(January 2021 - October 2023)

I participated in the development of an e-commerce for the sale of food, in which I developed a user authentication system, administration panel, payment gateways, shopping cart, purchasing system and search engine. The system was uploaded on Github and is currently in operation.

FinanceFlow

(<https://financeflow.aam.cu/>)

(December 2023 - September 2024)

I participated in the development of a dashboard in charge of keeping track of and recording financial records for companies. Here, a user authentication system was developed, as well as graphic models for the visualization of information from different perspectives, options for statistical analysis of information, analysis over time, and tips for more appropriate management of the economy. This project is on Github and is fully operational.

EDUCATION

UNIVERSITY OF COMPUTER SCIENCES

(2022 - 2026)

Bachelor's Degree in Computer Science Engineering

TECH

- TAILWINDCSS
- REACTJS
- NESTJS
- DJANGO
- POSTGRESSQL
- GIT & GITHUB
